

Monthly Quran Progress Check

For parents who do not read Arabic

Do this once a month

- 1 Choose one short passage learned at least three weeks ago. Never the current lesson.
- 2 Ask for it cold. No warm-up, no prompting, no teacher present.
- 3 Record it on your phone and date the file.
- 4 Write down two things only: how long it took, and how many times they stopped.
- 5 Next month, record the same passage and play both back to back.

Keep the record here

Compare the recordings, not your memory of them.

Date	Passage	Time taken	Times stopped

Across three or four months you should hear fewer stops, shorter gaps and a steadier line. If four recordings sound identical, take them to the teacher and ask what they would change.
