

Noorani Qaida Lesson Map and Progress Record

Free from abobakracademy.com

Seventeen lessons in seven bands. Tick a band only when the learner can do the middle column without help.

LESSONS	WHAT IT COVERS	WHAT THEY CAN DO AFTER IT	WHAT USUALLY STALLS THEM	
Lessons 1 to 2 date: _____	The twenty eight letters in isolated form, each from its own makhraj	Name and sound every letter on its own	Borrowing an English sound for ح ع ص ط. This is where a teacher matters most.	☐
Lessons 3 to 4 date: _____	Joined and compound forms, including ٱ	Recognise a letter anywhere in a word	Learning the isolated shape only, then freezing when the same letter appears joined.	☐
Lessons 5 to 7 date: _____	Fathah, kasrah and dammah, then tanween	Turn letters into syllables and read them aloud	Naming the vowel instead of sounding it, so ba becomes ba fathah.	☐
Lessons 8 to 10 date: _____	Two and three letter combinations	Read short combinations without stopping. Reading clicks here.	Rushing this band. It decides whether reading ever becomes automatic.	☐
Lessons 11 to 13 date: _____	Long vowels, huroof maddah, and the soft letters, huroof leen	Hold a stretch for two counts, the same way every time	Stretching by feel, so the same word is two counts once and four the next.	☐
Lessons 14 to 15 date: _____	Sukoon and shaddah	Read silent and doubled letters with the right rhythm	Passing over the shaddah, which reappears later as a missing ghunnah.	☐
Lessons 16 to 17 date: _____	Full words and short verses from the Quran	Read a short surah applying the stretching and stopping rules	Arriving here before band four is automatic, which forces a re-learn.	☐

How to use this sheet

- Tick a band only when the middle column is true without help, on a day you did not warn them it was coming.
- If a band takes twice as long as the one before it, the problem is usually the band before it, not this one.
- The red column is what to listen for. Catching it early is the whole point of a primer.

Notes

Do not move a learner on because a date has passed. Move them on when the middle column is true without help.
